

BUSINESS PORTFOLIO

ABOUT US

Turnkey Solution Provider - We provide solutions tailored to your needs, from on-site survey, through the design and procurement process, to implementation and commissioning. Our areas of operation are shipbuilding, plant and mechanical engineering. Worldwide time-critical jobs on seagoing vessels, mega yachts and offshore platforms are our speciality.

SERVICE

- Maintenance, repairs and servicing of **marine engines** and ship equipment
- Inhouse services using **CNC and traditional machining** like crankshaft lapping and grinding, honing of cylinder liners, gear milling, etc. We regenerate machine parts and subassemblies using **welding and laser cladding** methods - shafts, rudder stocks, propeller blades.
- Prefabrication and assembly of **pipng systems** - preparation of drawings as well as production of prefabricated **spools in carbon/galvanized, stainless steel, CuNi, Duplex, GRE as well as Blücher & LORO drainage systems**
- Planning and new construction as well as repair of **ship hydraulics** as well as systems and hydraulic power units (HPU)/short-term hose production with approvals such as DNV, LRS, BV etc. also for CO2
- Repair and assembly of HiFOG, Ultra Fog, Mini-Max and other well known **FiFi sprinkler system** manufacturers
- **Automation technology** and **electrical installations** for ship operation - from cable laying to complete new construction of electrical installations such as **switchboards, valve control systems** etc.
- **HVAC** from A to Z from small repair works to delivery and assembly of complete systems
- Retrofits of **passenger cabins** including new furniture, wall/ceiling panels and floor laying work
- Design as well as repair and installation of **BWTS, Scrubber** incl. material like stainless steel, GRE, Duplex etc.

AGENCY

- Consultancy in organizing supply chain for companies related to the maritime business
- Support shipowners and shipyards in finding solutions for their procurement needs
- Discover new customers and initiate business possibilities for company partners
- Engineering Consultancy
- Project Management

SUPPLY

We supply all the necessary materials for the work we carry out, our specialties are:

- Teekay Couplings
- Valves, actuators, strainers, speciality valves - navy, vacuum, regulating, safety, solenoid etc.
- Piping - carbon steel, stainless steel, CuNiFe, GRE, pipes and profiles, flange s, fittings
- Hydraulic components
- Spare Parts:
 - Diesel Engines
 - Turbo Chargers
 - Pumps
 - Air Compressors
 - Cooling Compressors
 - Heat Exchangers
 - Filters
 - Fuel and Lube Oil Separators
 - Bilge Water Separators
 - Water Treatment Plants
 - Stern Tube Seals
 - Couplings and Dampers
